G92-004

Northwest Territories. Dept. of Information. [moving images, sound recording] [196-? -197-?]
30 film reels, 1 sound tape reel

This accession consists of approximately 25 films and one sound tape reel. Much of the accession is currently unidentified. Some of the identified reels of film concern events in the NWT, such as the Commissioner's Tour of the Central Arctic, 1970 Arctic Winter Games, Caribou Carnival in Yellowknife, and a C.B.C. production on whaling in the north. One canister (double reel depth) contains 6 small-unidentified film reels and one sound tape reel. All these items were listed in the inventory under item number G92-004:0024, since it was impossible to determine if any relationship between these items existed.

Transferred to the NWT Archives in 1982 by Bill Stewart A-V Unit, Dept of Information.
